

INGENIUM Academic Staff Meeting in Engineering

28-29 October 2025, Iasi, Romania

The goal of the **INGENIUM Academic Staff Meeting in Engineering**, organized by Gheorghe Asachi Technical University of Iasi, is to enhance the learning opportunities for students and collaborations for academics and staff for education and research, to explore, identify and establish the groundwork for new and developing existing initiatives that can lead to the creation of new joint courses, programs, and to joint PhD supervisions.

We invite **2-3 academic staff** from partners that are interested in collaborating in these areas. We kindly invite the participating staff to register through their local office by **21st of October**.

We look forward to your valuable participation, your presence will contribute greatly to the success of this collaborative event!

Please read below the Draft agenda. A detailed agenda with locations for all events will be sent to participants after registration has closed.

Irina Lungu

Manager of INGENIUM Project in TUIASI

Draft Agenda

28th of October 2025

Time	Topics	Description of the activity
8.30-9.00	Registration of the participants	The meeting will take place in the TUIASI Rectorate Building
9.00 – 10.30	Brief Introduction of the Day and presentation of partner universities	The day will start with a short overview of the program. Afterwards, each partner university will have a short presentation that will be introduced by its representative.
10.30-11.00	Coffee break	
11.00–12.30	Pathway Programs – existing initiatives	Participants are invited to discuss the most beneficial approach of potential contributions in terms of courses, with physical/blended or fully online participation from students. The discussions should also focus on the teachers' collaboration in joint educational materials, usage of the INGENIUM Learning Platform, and design methodologies for multilingual use.
12.30-13.30	Pathway Programs – new initiatives	Discussions on the undergraduate programs allowing for more interdisciplinarity in Engineering
13.30-15.00	Lunch break	
15.00-16.00	Joint Program in AI	Discussions should favor more concrete steps for contributions for courses and into the accreditation process for obtaining the European Degree Label
16.00-17.00	Joint Programs – new initiatives	Open discussions
18.30–21.00	Social Dinner hosted by TUIASI	all participants are invited

29th of October 2025

Time	Topics	Description of the activity
8.45-9.00	Registration of the participants	The meeting will take place in the TUIASI Rectorate Building
9.00 – 11.00	Developments of Blended Intensive Programs – BIPs	Discussions on the topics of interest, following core/transversal subjects, approach to interdisciplinarity, joint teaching contributions
11.00-11.30	Coffee break	
11.30–13.30	Microcredentials – existing and new initiatives	Participants are invited to discuss the most beneficial approach to co-design modules/courses within and outside the full degree programs.
13.30-15.00	Lunch break	
15.00-16.30	Joint PhD supervision, Joint PhD programs	Discussions should favor more concrete steps to unlock the potential for joint education and research with a focus on Engineering/STEAM.
