

Electrical Engineering and Information Technology

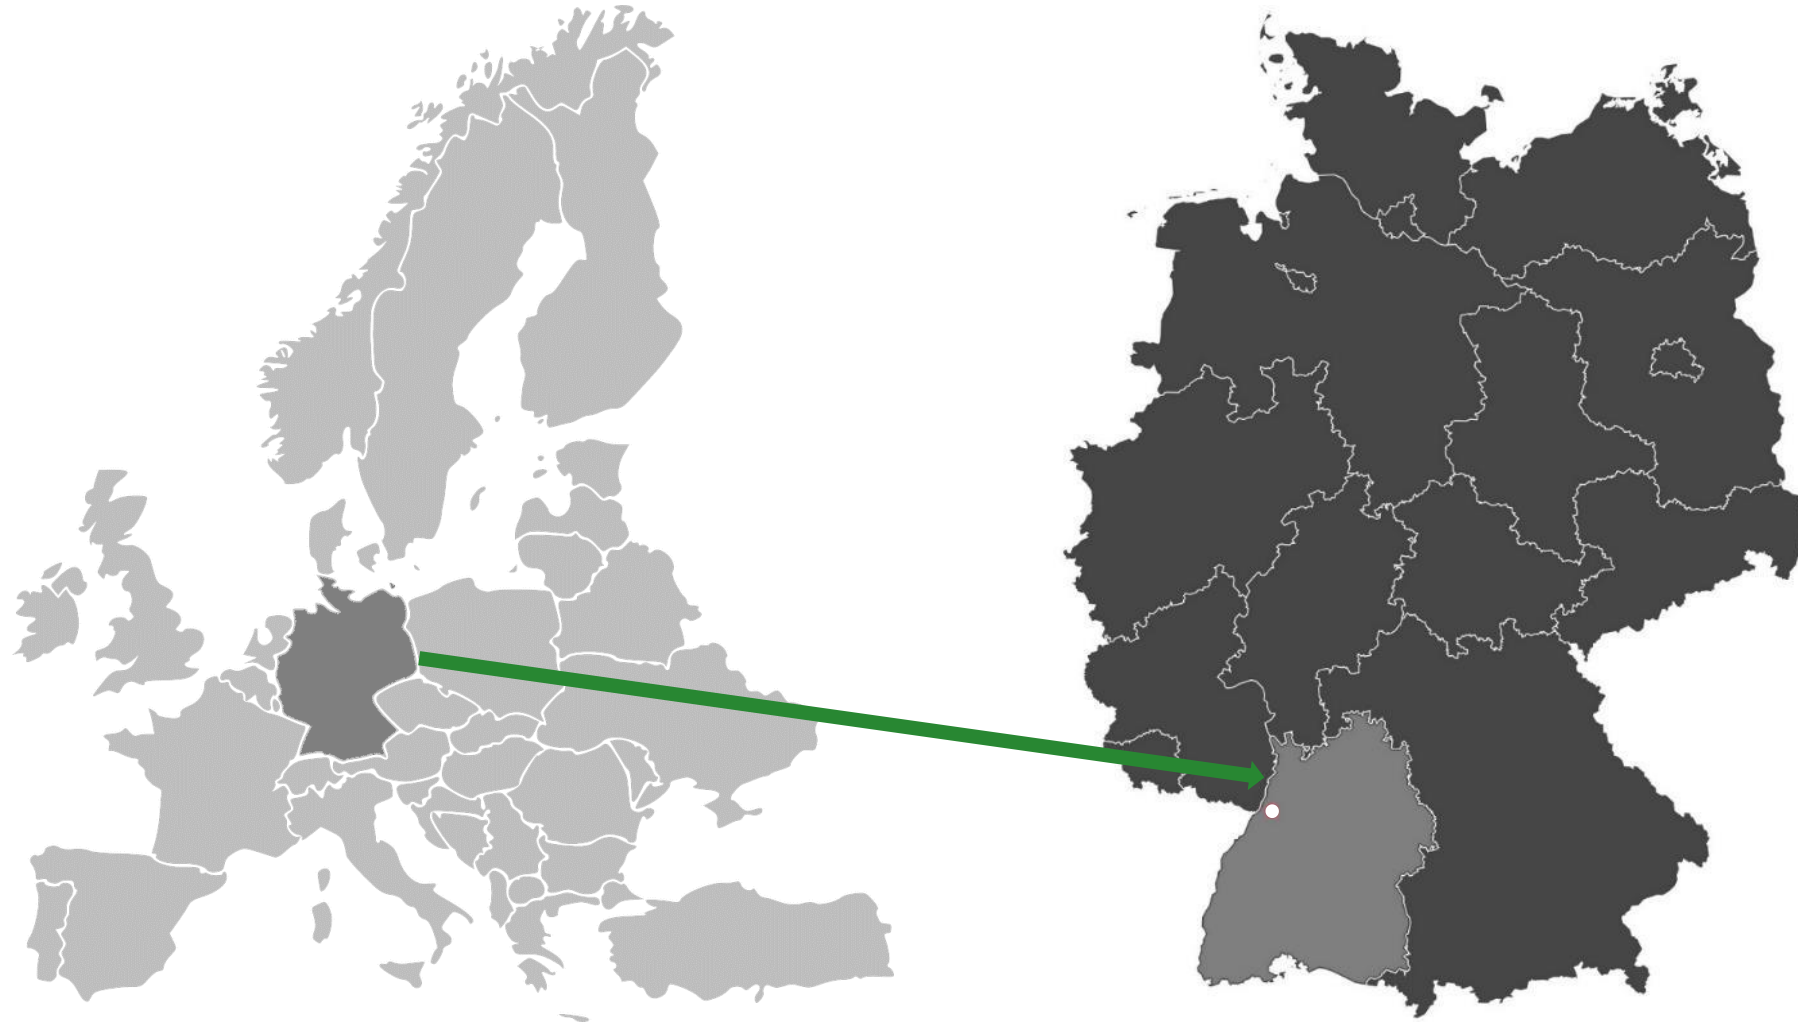

What will you know after this presentation?

1. Why to **study in Karlsruhe**, Germany?
2. A short overview about our **university**
3. Things you should know about **our faculty** and its courses
4. A short introduction to our **new international bachelor degree programme**
5. And what about our well-established international **master's course**?
6. Questions and answers

Karlsruhe: located at the heart of Europe

Some highlights about Karlsruhe

Germany's city "fittest for the future"
Morgenstadt City Index 2016

City of culture & creativity
ranked 2nd amongst Europe's
medium-sized cities in 2017 "Cultural
& Creative Cities Monitor"

Germany's most bicycle-friendly city
ADFC 2019

Excellent public transport system

**Center of one of Europe's top
technology regions**

Germany's capital of justice
Seat of the Federal Constitutional
Court and the Federal Court of Justice

the mind of movement

Our university is embedded in nature

Our university's facts & figures

1878

founding year

1971

university status

7,000

full-time students

210

full professors

390

lecturers and
instructors

6

faculties

22

bachelor's programs

20

master's programs

Key benefits of our bachelor degree programmes

**Ideal ratio of
theory and
practice**

**Classroom-sized
lecture halls**

**High career
opportunities in
German industry**

**Close supervision
by
+ 30 professors**

**Close industry
network**

**+ 3 years industry
experience of all
professors**

**Application-
oriented
education**

**Huge range of
subjects**

The topics of Electrical Engineering & Information Technology

Electrical Engineering and Information Technology (EITB)

- 100% German teaching language
- 7 semesters, 210 ECTS
- Areas of specialisation as focal subjects:
 - Information Technology
 - Industrial Automation
 - Electromobility and Autonomous Systems
 - Power Engineering and Renewable Energy
 - Sensor Technology
 - Environmental Instrumentation

Electrical Engineering and Information Technology (EEIB)

- 100% English teaching language
- **Started in Oct. 2021**
- 7 semesters, 210 ECTS
- Focal subjects for area of specialisation at the main course
 - Automation & Robotic
 - Information Technology

Electrical Engineering and Information Technology (EITM)

- 100% German teaching language
- 3 semesters, 90 ECTS
- Areas of specialisation as focal subjects :
 - Information Technology
 - Industrial Automation
 - Electromobility and Autonomous Systems
 - Power Engineering and Renewable Energy
 - Sensor Technology

Sensor Systems Technology (SSTM)

- 100% English teaching language
- 4 semesters, 120 ECTS
- Natural Sciences & Electrical Engineering combined
- Research oriented

Robotics and Artificial Intelligence in Production

- Mainly German teaching language, individual lectures in English
- 3 semesters, 90 ECTS
- Combines different subject areas
- Digital transformation oriented

Top facts:

- Brand new, started in Winter 2021/22 (Oct. 2021)
- One start per year
- Real, 100% English-taught programme
- In-depth education in a broad range of Electronics, Control, Computing, Natural Sciences
- Proven concept, interchangeable with German taught parallel programme
- German language course in parallel
- 7 Semesters, two focal subjects for individual specialisations
- Precondition: German language knowledge of level A1 to be admitted

See website of department: <https://www.h-ka.de/en/eeib>

Modules in basic study period

Semester 1

- Mathematics 1
- Circuit Analysis 1
- Physics
- Programming 1
- Language 1

Semester 2

- Mathematics 2
- Circuit Analysis 2
- Electromagnetic Fields
- Digital Electronics
- Language 2

In Detail: Basic Study Period

Semester 1	Mathematics 1 6 SWS (7 CPs)	Circuit Analysis 1 (DC) 3 SWS (3 CPs)	Physics 4 SWS (4 CPs)	Computer Programming 2 SWS (4 CPs)	Deutsch als Fremdsprache 1 4 SWS (4 CPs)	26 SWS 30 CPs 5 Exams 2 Labs
		Circuit Analysis Project 1 1 SWS (2 CPs)	Physics Lab 2 SWS (2 CPs)	Computer Programming Lab 2 SWS (2 CPs)	Intercultural Communication 2 SWS (2 CPs)	
Semester 2	Mathematics 2 6 SWS (7 CPs)	Circuit Analysis 2 (AC) 4 SWS (4 CPs)	Electromagnetic Fields 4 SWS (4 CPs)	Digital Electronics 4 SWS (4 CPs)	Deutsch als Fremdsprache 2 4 SWS (4 CPs)	28 SWS 30 CPs 5 Exams 2 Labs
		Circuit Analysis 2 (AC) Lab 2 SWS (3 CPs)		Digital Electronics Lab 2 SWS (2 CPs)	Scientific Work 2 SWS (2 CPs)	

SWS = Semester hour per week

CP = Credit Point (ECTS)

Emphasis in the main course of study program

Industrial Automation

Robotics

Modules in main study period

Semester 3

- Mathematics 3
- Instrumentation and Measurement
- Programming 2
- Signal and Systems
- Language 3

Semester 4

- *Focal Subjects 1*
- Advanced Electronics
- Microcontroller Systems
- Control Systems
- Management

Semester 5

- Practical Training Guidance
- Practical Placement / Industry Internship

Semester 6

- *Focal Subjects 2*
- Digital Systems

Semester 7

- *Focal Subjects 3*
- Project
- Bachelor Thesis
- Final Presentation

EEIB Module Summary: Main Study Period

Semester 3	Mathematics 3 4 SWS (5 CPs)	Instrumentation and Measurement 4 SWS (4 CPs)	Object Oriented Programming 2 SWS (2 CPs)	Signals and Systems 4 SWS (4 CPs)	Language 3 4 SWS (4 CPs)	First time WS 22/23 28 SWS 30 CPs 6 Exams 3 Labs
	Modelling and Simulation 2 SWS (2 CPs)	Instrumentation and Measurement Lab 2 SWS (3 CPs)	OOP Lab 2 SWS (2 CPs) OOP Project 2 SWS (2 CPs)	Signals and Systems Lab 2 SWS (2 CPs)		
Semester 4	Applied Control 4 SWS (5 CPs)	Advanced Electronics incl. Lab 4 SWS (5 CPs)	Microcontroller-Systems 4 SWS (4 CPs)	Control Systems 4 SWS (5 CPs)	Management 6 SWS (6 CPs)	First time SS 23 30 SWS 33 CPs 6 Exams 3 Labs
	Applied Control Lab 2 SWS (2 CPs)	Advanced Electronics Lab 2 SWS (2 CPs)	Microcontr.-Systems Lab 2 SWS (2 CPs)	Control Lab 2 SWS (2 CPs)		
Semester 5	Practical Placement (Internship in Industry) 95 days (24 CPs)				Practice Preparation and Practical Training Follow-Up 4 SWS (6 CPs)	First time WS 23/24 4 SWS 30 CPs
Semester 6	Automation Engineering 4 SWS (5 CPs)	Robotics 2 SWS (3 CPs)	Wireless Communication and Information Technology with Lab 3 + 1 SWS (5 CPs)	Physical Sensors 4 SWS (5 CPs)	Theory of Digital Systems 4 SWS (4 CPs)	First time SS 24 24 SWS 28 CPs 6 Exams 3 Labs
	Automation Engineering Lab 2 SWS (2 CPs)	Robotics Lab 2 SWS (2 CPs)			Bus Systems 2 SWS (2 CPs)	
Semester 7	Industrial Internet of Things 2 SWS (3 CPs)	Project (7 CPs)	Bachelor-Thesis (12 CPs)	Final Presentation (3 CPs)	Final Presentation (3 CPs)	First time WS 24/25 6 SWS 30 CPs 3 Exams
	Process Control Systems 2 SWS (2 CPs)					
	Stud. Generale 2 SWS (3 CPs)

Focal Subjects of

Automation Technology

Information Technology

Sensor Technology

Impression of projects

Master programme Sensor Systems Technology

Top facts:

- Established, long experience with international students. Support by International Office
- Dual degree programs, students from all over the world, 25 places/year
- Attractive combination of Natural Sciences and Electrical Engineering
- Best job chances in Germany and abroad – most of our alumni stay
- Future-proof and crisis-proof broad field of studies
- No prerequisites of German language knowledge!
- 4 Semesters: (Starting March each year)

See website of department: <https://www.h-ka.de/en/sstm>

Facts for your application:

Application deadline:

- non-EU citizens and EU citizens: **15th September**
